SUMMARY

Bringing in extensive experience working with large-scale systems and production environments, focusing on reliability, performance, and scalability. Strong background in troubleshooting complex issues, supporting distributed systems, and improving operational efficiency. Experienced in handling customer facing production workloads, mentoring engineers, and contributing to internal improvements.

TECHNICAL SKILLS

Systems & Datastores:	Linux (RHEL, Ubuntu, CentOS), MySQL
Cloud & Containers:	AWS, OpenStack, Kubernetes
Automation & CI/CD:	Ansible, TeamCity
Observability:	Prometheus, Grafana, Zabbix, CloudWatch
Networking & Web Servers:	DNS, TCP/IP, Nginx, Apache

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Certified Kubernetes Administrator (CKA)
- Red Hat Certified Engineer (RHCE)
- Red Hat Certified System Administrator (RHCSA)

EXPERIENCE

Cloud Support Engineer L2

2024 – Present

Platform9 Systems, Pune, India

- Manage and scale AWS-based infrastructure and core Platform9 products/services like Platform9 Managed Kubernetes, Platform9 Cloud Director, Managed OpenStack, etc.
- Support and troubleshoot EMP (Elastic Machine Pool) deployments and OpenStack environments.
- Managing and supporting cloud infrastructure across AWS environments.
- Build and maintain comprehensive observability stacks, creating alerts and dashboards in Prometheus and Grafana.
- Handle Incident Response and fix recurrent issues by coordinating with product management teams.

Cloud Support Engineer L4

2021 – 2023

Amazon Web Services (AWS), Bangalore, India

- Supported enterprise customers across core AWS services including EC2, EBS, Lightsail, SSM, VPC, and CloudWatch.
- Troubleshot complex infrastructure, networking, and container deployment issues.
- Guided clients on best practices for high availability, fault tolerance, and proactive monitoring.

Systems Engineer

2020 – 2021

Rakuten, India

- Monitored application and infrastructure health across large-scale production environments. Alert Handling via Monitoring tools like ICINGA and Grafana.
- Managed alert pipelines, performed incident triage, and minimized downtime.

Senior Hosting Product Specialist

2018 – 2020

Newfold Digital, India

- Troubleshooting Managed Dedicated and VPS server issues for leading hosting players like BlueHost, HostGator, BigRock, and ResellerClub.
- Administered fleet of Linux servers in high-traffic, large-scale hosting environments.
- Resolved critical issues related to DNS, mail servers, Apache, firewalls, and MySQL databases.
- Server Hardening and Service Optimisation.
- Managed cPanel/Plesk servers, executed LAMP/LEMP setups, and performed routine OS patching.

Senior Software Engineer

2016 – 2018

Poornam Info Vision, Kochi, India

- Provisioned and managed AWS infrastructure and virtualization environments.
- Automated repetitive operational tasks and deployments using Ansible.
- Implemented and maintained system monitoring solutions using Nagios, Prometheus, and Grafana.

EDUCATION

Bachelor of Engineering in Computer Science

2016

Anna University
